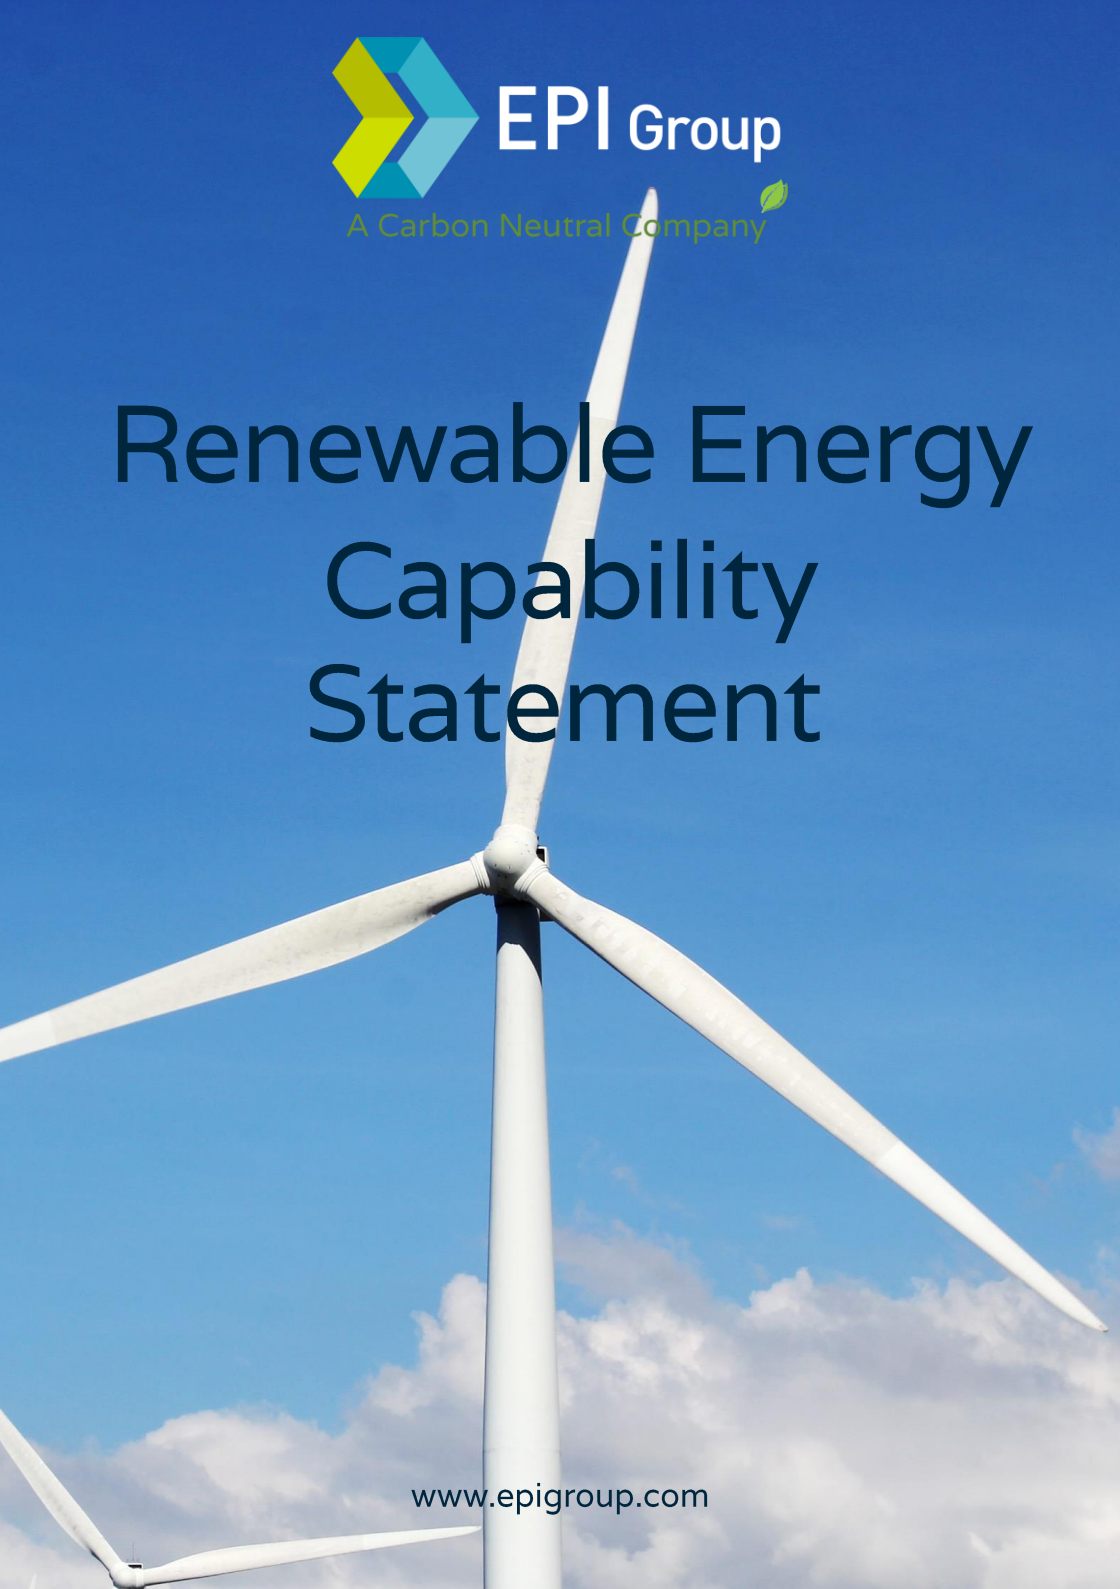
EPI Group

A Carbon Neutral Company

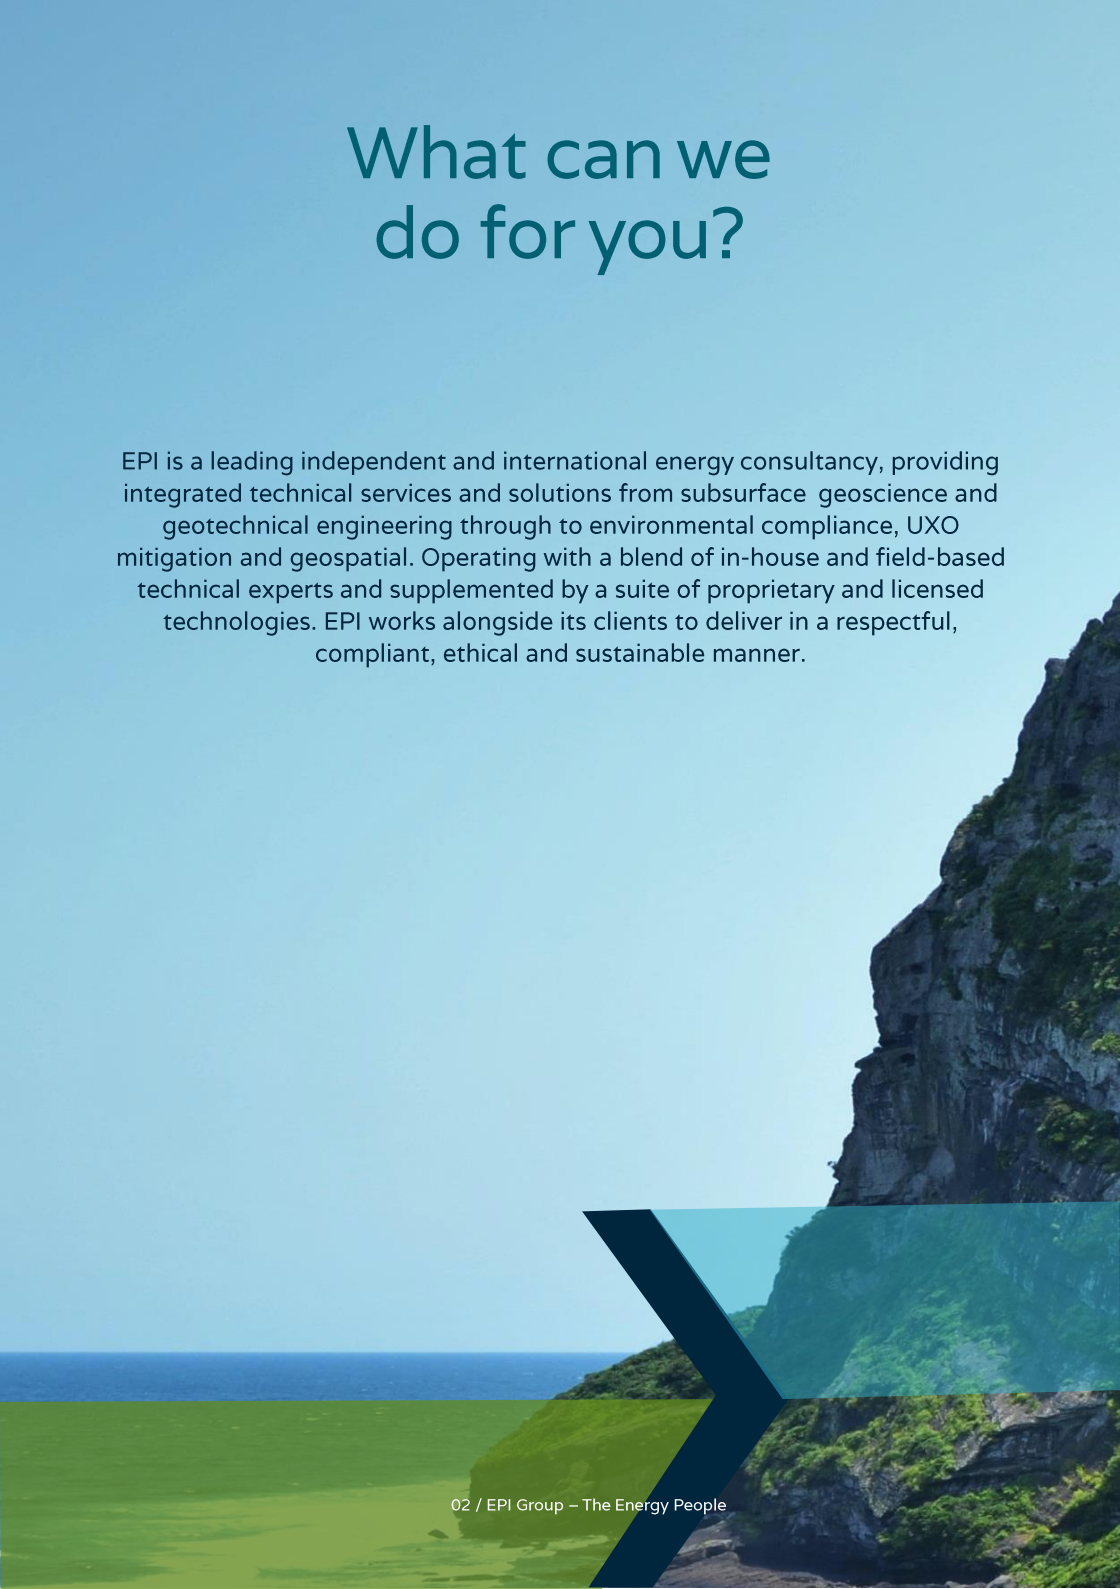
Renewable Energy Capability Statement



www.epigroup.com

What can we do for you?

EPI is a leading independent and international energy consultancy, providing integrated technical services and solutions from subsurface geoscience and geotechnical engineering through to environmental compliance, UXO mitigation and geospatial. Operating with a blend of in-house and field-based technical experts and supplemented by a suite of proprietary and licensed technologies. EPI works alongside its clients to deliver in a respectful, compliant, ethical and sustainable manner.



The Technical Specialists

EPI offer support and supervision throughout your project life-cycle, from initial feasibility studies and scoping through to decommissioning.

Not only are we able to provide you with consultants for your projects, but we have the technical expertise in-house to offer reassurance and project management. We have in-house specialists in:

- Environmental,
- Geospatial,
- Geoscience,
- QHSE Services,
- Geotechnical,
- UXO Mitigation,
- Operations.

Our combined team have over 300 years of experience within the energy industry, and a proven track record of delivering service excellence.

Service Listing

Geoscience

Full suite of Data interpretationand mapping for foundations, cable routes and geohazards

(UHR multichannel, SSS, SBP, magnetics & others)

Geotechnical integration and interpretation

Subsurface de-risking

Full suite of modelling (OMNI, Hampson Russell)

Bespoke seismic data testing and processing

Geometry processing and wave height correction

Inversion and NeuralNetwork Capability

GIS Data Management

QHSE

HSE client representatives

Vessel HSE Assurance and Inspection (IMCA, OVID, CMID)

QHSE Management System development

Impact Assessments

Project Planning and Management

Accident Investigations

Training: Driver/First Aid/HSE/HSE-MS/Fire/Refreshers

Environmental

Environmental permitting & Environmental & Social Impact Assessments (ESIA)

Baseline Environmental Surveys, Environmental Constraints Mapping, Environmental Feasibility Studies

Environmental Management Plans (EMP), including Marine Mammal Mitigation Plans (MMMP)

Ecological Clerk of Works (ECoW)

Sound Source modelling and verification

Project management and advisory services

Desktop studies and literature reviews

Public consultations

Service Listing

UXO Mitigation

Tendering and contract management

Project management, client representation and QC auditing

QC/QA of visual identification targets on pipeline, trenching, cable routes, harbours and seabed infrastructure

QC/Management of risk mitigation

QC/Management of UXO/EOD investigations, surveys, safe removal and disposal

QC/ review of UXO Project emergency response plans

Operations

Site Investigation Project Management

Tendering and contract management

Geophysical client representatives

Geotechnical client representatives

Geospatial

Topographical Survey

Manned Aircraft

Reality Capture

Mobile Mapping

UAV surveys

Photogrammetry

Major Clients

Our clients are as diverse as the services we offer, from the oil majors to smaller companies, survey contractors and renewables.

Quality & Safety Standards

Institute of Explosives Engineers
VOICE OF THE EXPLOSIVES INDUSTRIES
